

UX Improvements  
Managing your Joomla! site is  
easier than ever.

UX

Drag and Drop Images  
Now you can drag and drop images  
right into the editor.

Update Emails  
Keeps Joomla! up to date and  
secure by notifying admins.

3.5

Anonymized Data  
Improve future versions  
of Joomla!

Emojis!  
Joomla! now fully supports 4-byte Unicode  
characters such as Kanji and Emojis.

Flipping Images  
Now you can flip images vertically,  
horizontally or both on the fly.

Do more.

Joomla 3.5 and Beyond...

# Overview

---

- Joomla 3.5 Tentative Timeline
- What's in Joomla 3.5
- What's Coming After Joomla 3.5
- Questions

# Release Timeline for Joomla 3.5

---

- Release was delayed due to an issue with database changes
- Current Timeline
  - January 27th - Beta 2
  - February 3rd - Beta 3
  - February 10th - Release Candidate
  - February 17th - 3.5.0 Stable

# What's in Joomla 3.5 (Beta 1)

---

- PHP 7 Support
- Update Emails plugin (for site upgrades)
- Plugin to gather anonymized data (opt-in)
- Count Items ( category manager)
- Added Site / Admin links to module User Status
- Ability to add user.css to protostar
- Download system / environment info
- TinyMCE drag and drop images
- Backwards Compatibility Break (related to php 7 support)
- Possible removal of com\_messages ( Private messaging)

# Beyond Joomla 3.5...

---

- Decoupling of Core Extensions
- Joomla 3.6 and 3.7 (Roadmap)
- Joomla 4

# Decoupling Core Extensions

---

- Goal of this is to make the Joomla Core smaller and uncluttered
- Remove and still support the following extensions:
  - Contact
  - Finder
  - Messages ( Joomla 3.5 )
  - Newsfeeds
  - Redirect
  - Search / Smart Search
  - Weblinks (already done)
- Make available on JED to install if needed

# Proposed Focus for Joomla 3.6 and Joomla 3.7

---

- Joomla 3.6  
( 1st / 2nd Quarter 2016)
  - Web Services
  - New MVC
  - Remove some unneeded sample data sets
  - Improve translation experience
- Joomla 3.7  
(3rd Quarter 2016)
  - Improve installer
  - New Media Manager
  - Continue removal of Core Extensions

# Joomla 4

---

- The next major release of Joomla
  - Big changes are likely to come with this release
- Began in earnest from a community push at JandBeyond in May / June 2015
- An official working group has been created by the Joomla Project for the Joomla 4 development

<http://volunteers.joomla.org/working-groups/joomla-4-working-group>

- Presentation from JWC 15 on Joomla 4
